## Auditor's Report

**To: The Shareholders of Arabian Cement Company**  
**An Egyptian Joint Stock Company**

### Report on the Separate Financial Statements

We have audited the accompanying separate financial statements of Arabian Cement Company SAE, which comprise separate statement of financial position as of December 31, 2022, and separate statements of profit or loss, comprehensive income, cash flows and changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory notes.

### Management's Responsibility for the Separate Financial Statements

The separate financial statements are the responsibility of the company's management. Management is responsible for the preparation and fair presentation of these separate financial statements in accordance with the Egyptian Accounting Standards and the prevailing Egyptian laws. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the separate financial statements that are free from material misstatement, whether due to fraud or error; management responsibility also includes selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

### Auditor's Responsibility

Our responsibility is to express an opinion on these separate financial statements based on our audit. We conducted our audit in accordance with the Egyptian Standards on Auditing and the prevailing Egyptian laws. Those standards require that we plan and perform the audit to obtain reasonable assurance whether the separate financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the separate financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the separate financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the separate financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the separate financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the separate financial statements.

## Opinion

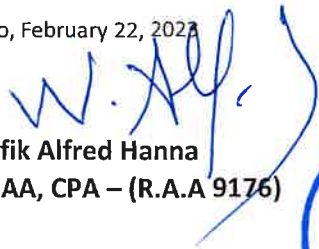

In our opinion, the separate financial statements referred to above present fairly, in all material respects, the separate financial position of Arabian Cement Company SAE as of December 31, 2022, and the results of its separate operation and its separate cash flows for the year then ended in accordance with Egyptian Accounting Standards and the applicable Egyptian laws and regulations relating to the preparation of these separate financial statements.

## Report on Other Legal and Regulatory Requirements

The Company maintains proper books of accounts, which include all that is required by law and the statutes of the Company. The separate financial statements are in agreement thereto. The company maintain a proper cost accounts and the inventories were counted by management in accordance with methods in practice.

The financial information referred to in the board of directors report is prepared in compliance with the requirements of Companies Law No. 159 of 1981 and its Executive Regulations thereto, and is in agreement with the books of accounts of the Company to the extent that such information are recorded therein.

**1. General information**

Arabian Cement Company S.A.E. (ACC or the Company), a joint stock Company incorporated in Cairo, Egypt, is a public company whose shares are traded at the EGX Egyptian Exchange. The Company was established on March 5, 1997 under the provisions of the Investment Law No. 230 of 1989 and the Capital Market Law No. 95 of 1992 according to the Chairman of the General Authority for Investment and Free Zone (GAFI) decree No. 167 of 1997.

The Company was registered at the Commercial Register under No. 13105 in Cairo on April 3, 2005, which was changed to No. 53445 on August 16, 2011 as the Company changed its registered office from 72 Gameat El Dowal Street, Mohandiseen, Giza- Egypt. The admin office changed to be on Gamal Abdel Nasser square (west Arabella), Fifth Settlement Arabella Plaza, Office Building (A), 5th floor.

The Company's objective is the manufacturing and sale of clinker, cement and the other related products and usage of mines and extraction of all mining materials required for the production of construction materials and road transportation for all the company's product. The Company may carry out other projects or amend its purpose according to the Investment Incentives and Guarantees Law.

The Company produces cement with a clinker capacity of 4.2 million tonnes per annum that can produce 5 million tonnes per annum of cement.

The main shareholder of the Company is Aridos Jativa – Spanish Company, and it owns 60% of the Company's capital.

The Company's term is 25 years starting from the date of its registration at the commercial register.

**2. Significant accounting policies**

**2.1 Basis of preparation**

The separate financial statements have been prepared on the historical cost basis except for financial instruments that are measured at fair value or amortized cost, as appropriate.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

The independent financial statements were prepared in accordance with the Egyptian Accounting Standards issued by Ministerial Decree No. 110 of 2015 amended by Decree of the Minister of Investment No. 69 of 2019.

**2.2 Revenue recognition**

The company recognizes revenue from contracts with customers based on a five-step model set out in Egyptian Accounting Standard No. (48) - Revenue from contracts with customers

Step 1: identify the contract with the customer: A contract is defined as an agreement between two or more parties that create enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: identify the performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer goods or services to the customer.

Step 3: determine the transaction price: the transaction price is the amount of consideration to which the entity expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligation in the contract: for a contract that has more than one performance obligation, the entity will allocate the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the entity expects to be entitled in exchange for satisfying each performance obligation.

Step 5: recognize revenue when (or as) the entity satisfies the performance obligation.

If the consideration promised in a contract include a variable amount, the entity shall estimate the amount of consideration to which the entity will be entitled in exchange for transferring the promised goods or services to a customer.

An amount of consideration can vary because of discounts, rebates, refunds, credits, price concession, incentives, performance bounces, penalties, or other similar items. The promised consideration can also vary if the entity's entitlement to the consideration is contingent on the occurrence or non-occurrence of a future event.

The entity sells packed and non-packed cement and clinker, where selling process is either through selling invoices and/or specific contract with a customer.

#### **Sales of goods**

For contracts with customers which the only obligation is going to be selling cement, revenues shall be recognized at the time in which control over asset is transferred to the customer at a specific point in time, which is usually at the delivery date.

The entity recognizes revenue at the point in time at which the customer obtains control of a promised asset and the entity satisfies the performance obligation. The entity considers the below mentioned indicators to assess the transfer of control of the promised asset.

- The entity has a present right to payment for the asset
- The customer has the legal title to the asset
- The entity has transferred physical possession of the asset
- The customer has the significant risks and rewards of ownership of the asset
- The customer has accepted the asset.

#### **Transportation services**

Transportation revenue is recognized at a point in time when the company fulfils its performance obligations towards customers, i.e., when the product is delivered to the specified place.

### **2.3 Foreign currencies**

The financial statements are presented in Egyptian Pound (EGP), which is the currency of the primary economic environment in which the Company operates (its functional currency).

Transactions in currencies other than the Company's functional currency (foreign currencies) are recognised at the rates of exchange at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date.

Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in the separate statement of profit or loss in the period in which they arise.

The exchange rates for the major foreign currencies against EGP relevant to the annual financial statements were:

Currency table	December 31, 2022		31 December 2021	
	Average	Year end	Average	Year end
1 USD US Dollar	18.99	24.71	15.73	15.74
1 EUR Euro	20.03	26.45	18.59	17.92

### **2.4 Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time, as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in the separate statement of profit or loss in the period in which they are incurred.

The amount of borrowing costs that an entity capitalises during the period shall not exceed the amount of borrowing costs it incurred during that period, provided that the carrying amount of the qualifying asset on which eligible borrowing costs have been capitalized does not exceed its recoverable amount (being the higher of fair value less costs to sell or amount in use for that asset).

## **2.5 Employee benefits**

### **2.5.1 Profit sharing**

The company pays 10% of the cash profits which are allocated for distribution, at maximum of the employees' basic salaries. Employees' profit sharing is recognized as a dividend distribution through equity and as a liability when approved by the company's shareholders. No liability is recognized for profit sharing relating to undistributed profits.

### **2.5.2 Pension obligations (Social insurance)**

For defined contribution plans, the company pays contributions to the General Social Insurance Authority under Law No. 79 of 1975 and its amendments - plans on a mandatory basis. Once the contributions have been paid, the Company has no further payment obligations. The regular contributions constitute net periodic costs for the period during which they are due and as such are included in staff costs.

## **2.6 Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

### **2.6.1 Current tax**

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the separate statement of comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The entity's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

### **2.6.2 Deferred tax**

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the separate financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the entity expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

### **2.6.3 Current and deferred tax for the year**

Current and deferred tax are recognised as an expense or income in the separate statement of profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

**2.7 Investments in subsidiaries**

Investments in subsidiaries are investments in entities in which the company has control. The investor controls the investee when he is exposed or is entitled to variable returns through his contribution to the investee and is able to influence those returns through his authority over the investee.

Investments in subsidiaries are accounted for at cost inclusive of transaction cost and in case the investment is impaired, the carrying amount is adjusted by the value of this impairment and is charged to the statement of profits or losses for each investment separately.

**2.8 Investments in joint ventures**

A joint venture is joint arrangement whereby the parties that they have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. Investments in joint ventures are accounted for at the application of the equity method, and in case the investment is impaired, the carrying amount is adjusted by the value of this impairment and is charged to the statement of profits or losses for each investment separately.

**2.9 Property, plant and equipment**

Buildings, plant and equipment, furniture and fixtures held for use in the production, supply of goods or services or for administrative purposes are stated in the separate statement of financial position at cost less any accumulated depreciation and accumulated impairment losses.

Properties in the course of construction for production, administrative purposes or for a currently undetermined future use are carried at cost less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalized in accordance with the entity's accounting policy as described in note 2.4 Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation of buildings, plant and equipment as well as furniture and fixtures commences when the assets are ready for their intended use.

Freehold land is not depreciated.

Depreciation is recognized so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the net sales proceeds and the carrying amount of the asset and is recognised in the separate statement of profit or loss.

The following estimated useful lives are used in the calculation of depreciation:

Buildings	10 – 20 years
Machinery and equipment	20 years
Furniture and fixtures	16 years
Vehicles	10 years
Other installations	5 years
Computer and software	3 – 5 years

**2.10 Intangible assets**

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives.

The estimated useful lives and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimating being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in the separate statement of profit or loss when the asset is derecognized.

Assets	Years
Operating licence	20 years
Electricity contract	10 years

**2.11 Impairment of tangible and intangible assets**

At the end of each reporting period, the entity reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

When it is not possible to estimate the recoverable amount of an individual asset, the entity estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest entity of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the separate statement of profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in the separate statement of profit or loss.

**2.12 Inventories**

Inventories are stated at the lower of cost and net realizable value.

Costs, including an appropriate portion of fixed and variable production overheads as well as other costs incurred in bringing the inventories to their present location and condition, are assigned to inventories by the method most appropriate to the particular class of inventory, with the majority being valued on a moving average basis.

Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

The net realizable value of an item of inventory may fall below its cost for many reasons including, damage, obsolescence, slow moving items, a decline in selling prices, or an increase in the estimate of costs to complete and costs necessary to make the sale. In such cases, the cost of that item is written-down to its net realizable value and the difference is recognized immediately in the separate statement of profit or loss.

### **2.13 Provisions**

Provisions are recognised when the entity has a present obligation (legal or constructive) as a result of a past event, it is probable that the entity will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

### **2.14 Financial instruments**

Financial assets and liabilities are recognized when the company becomes a party to the contractual terms of the instrument.

#### **Recognition and initial measurement**

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Entity becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through the separate statement of profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

#### **Classification and subsequent measurement**

On initial recognition, a financial asset is classified as measured at: amortized cost; fair value through other comprehensive income (FVOCI) – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Entity changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Entity may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL.

This includes all derivative financial assets. On initial recognition, the Entity may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

**Financial assets – Business model assessment:**

The entity assesses the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities, or expected cash outflows or realizing cash flows through the sale of the assets.
- how the performance of the portfolio is evaluated and reported to the Entity's management.
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed.
- how managers of the business are compensated – e.g., whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume, and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Entity's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest:

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition.

'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Entity considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Entity considers:

- contingent events that would change the amount or timing of cash flows.
- terms that may adjust the contractual coupon rate, including variable-rate features.
- prepayment and extension features; and
- terms that limit the Entity's claim to cash flows from specified assets (e.g., non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that

substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

#### Subsequent measurement – financial assets

##### Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in the separate statement of profit or loss.

##### Financial assets at amortized cost

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses (see accounting policy on impairment). Interest income, foreign exchange gains and losses and impairment are recognized in the separate statement of profit or loss. Any gain or loss on de-recognition is recognized in the separate statement of profit or loss.

##### Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest income is calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in the separate statement of profit or loss. Other net gains and losses are recognized in OCI. On de-recognition, gains and losses accumulated in OCI are reclassified to the separate statement of profit or loss.

##### Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognized as income in the separate statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to the separate statement of profit or loss.

#### Financial liabilities – Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition.

##### Financial liabilities

at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in the separate statement of profit or loss. Any gain or loss on derecognition is also recognized in the separate statement of profit or loss.

#### Derecognition

##### Financial assets

The Entity derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Entity neither transfers nor retains substantially all the risks and rewards of ownership and it does not retain control of the financial asset.

The Entity enters transactions whereby it transfers assets recognized in its separate statement of financial position but retains either all or substantially all the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

##### Financial liabilities

The Entity derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire. The Entity also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in the separate statement of profit or loss.

#### **Offsetting**

Financial assets and financial liabilities are offset, and the net amount presented in the separate statement of financial position when, and only when, the Entity currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

#### **Impairment of assets**

##### **Non-derivative financial assets**

The Entity recognizes loss allowances for ECLs on:

- financial assets measured at amortized cost.
- debt investments measured at FVOCI; and
- contract assets.

The company measures allowances for expected credit losses for receivables that are disclosed as trade receivables, debtors and other debit balances.

The Entity measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e., the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

The Entity measures loss allowances for trade receivables and contract assets at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Entity considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Entity's historical experience and informed credit assessment and including forward-looking information. The Entity assumes that the credit risk on a financial asset has increased significantly if it is more than 90 days past due.

The Entity considers a financial asset to be in default when:

- the trade receivable is unlikely to pay its credit obligations to the Entity in full, without recourse by the Entity to actions such as realizing security (if any is held); or
- the financial asset is more than 90 days past due.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Entity is exposed to credit risk.

##### **Measurement of ECLs:**

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Entity expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

##### **Credit-impaired financial assets**

At each reporting date, the Entity assesses whether financial assets carried at amortized cost are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidences that a financial asset is credit-impaired include observable data about the following events:

- significant financial difficulty of the debtor.
- a breach of contract, such as default of payment.
- the company, for economic or contractual reasons accepted the debtor repayment schedule that the company would not otherwise consider.
- it is becoming probable that the debtor will enter bankruptcy or other financial reorganization

**Presentation of expected credit losses in the separate financial position**

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is recognized in OCI, instead of reducing the carrying amount of the asset.

**Write-off**

An entity shall directly reduce the gross carrying amount of a financial asset when the company has no reasonable expectations of recovering the full amount or portion of the financial asset. The Company expects not to recover a significant portion of the written-off amounts. However, the written-off financial assets may still be subject to enforcement activities in order to comply with the company's procedures for recovery of such receivable balances.

**Non-financial assets**

Non-financial assets that have an indefinite useful life, for example goodwill, are not subject to amortization but are tested annually for impairment or more frequently when indicators arise. Assets with a finite useful life are subject to depreciation or amortization and are reviewed (at least at the balance sheet date) for impairment whenever events or changes in circumstances indicate that the carrying amount may not be fully recoverable. An impairment loss is recognized for the amount by which the assets' carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. For the purposes of assessing impairment, assets are entitled based on the lowest level for which there are separately identifiable cash flows (cash-generating units). Impairment is recognized as an expense in the separate statement of profit or loss. Non-financial assets, which are impaired, are tested periodically to determine whether the recoverable amount has increased, and the impairment must be (partially) reversed.

Impairment losses on goodwill are not reversed. Reversal of impairments is only permitted if in a subsequent period after an impairment loss has been recognized, the amount of the impairment loss decreases, and the decrease can be related objectively to an event after the impairment loss was recognized.

**Effective interest method**

The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating the interest income over the relevant period. The effective interest rate is the rate that exactly discounts expected future cash inflows (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and any other premiums or discounts) over the expected life of the debt instrument - or over the A shorter period of time, if appropriate - specifically up to the asset's net carrying amount on initial recognition.

The income from debt instruments, which is subsequently measured at amortized cost, is recognized in the separate statement of profit or loss on the basis of effective interest, and this interest income is presented under the line "finance income".

**2.15 Lease Contracts**

In accordance with Resolution No. 69 of 2019 issued by the Minister of Investment in March 2019 regarding amending some provisions of the Egyptian Accounting Standards issued by the Minister of Investment No. 110 for the year 2015. These amendments included the addition of Standard No. 49 to replace the Egyptian Accounting Standard No. (20) Accounting of financial leasing operations, provided that it is applied to the financial periods beginning on or after January 1, 2020 and with the exception of the effective date, the date of the initial application is the beginning of the annual reporting period in which the finance lease law No. 95 of 1995 and its amendments was cancelled and in light of Standard No. 49 as at The beginning of the lease recognize the "right of use" and the lease liability.

**Initial measurement of the right-of-use asset**

At the commencement date, a lessee shall measure the right-of-use asset at cost, the cost of the right-of-use asset shall comprise:

- (a) The amount of the initial measurement of the lease liability, at the commencement date, a lessee shall measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee's incremental borrowing rate.
- (b) Any lease payments made at or before the commencement date, less any lease incentives received
- (c) Any initial direct costs incurred by the lessee; and
- (d) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. The lessee incurs the obligation for those costs either at the commencement date or as a consequence of having used the underlying asset during a particular period.

**Subsequent measurement of the right-of-use asset**

After the commencement date, a lessee shall measure the right-of-use asset. Applying a cost model, a lessee shall measure the right-of-use asset at cost:

- (a) Less any accumulated depreciation and any accumulated impairment Losses.
- (b) Adjusted for any re-measurement of the lease liability.

**Initial measurement of the lease liability**

At the commencement date, a lessee shall measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee's incremental borrowing rate.

**Subsequent measurement of the lease liability**

After the commencement date, a lessee shall measure the lease liability by

- (a) Increasing the carrying amount to reflect interest on the lease liability
- (b) Reducing the carrying amount to reflect the lease payments made
- (c) Re-measuring the carrying amount to reflect any reassessment or lease modifications, or to reflect revised in-substance fixed lease payments.

**Lease term**

The company shall determine the lease term as the non-cancellable period of a lease with periods covered by an option to extend the lease if the lessee is reasonably certain to exercise that option, and periods covered by an option to terminate the lease if the lessee is reasonably certain not to exercise the option. In assessing whether a lessee is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease.

**2.16 Grants**

Government grants are assistance by government in the form of transfers of resources to an entity in return for past or future compliance with certain conditions relating to the operating activities of the entity. They exclude those forms of government assistance which cannot reasonably have a value placed upon them and transactions with government which cannot be distinguished from the normal trading transactions of the entity

Grants related to assets are government grants whose primary condition is that an entity qualifying for them should purchase, construct or otherwise acquire long-term assets. Subsidiary conditions may also be attached restricting the type or location of the assets or the periods during which they are to be acquired or held.

Government grants, including non-monetary grants at fair value, shall not be recognized until there is reasonable assurance that the entity will comply with the conditions attaching to them; and the grants will be received.

Government grants related to assets, including non-monetary grants at fair value, shall be presented in the separate statement of financial position through recognizes the grant as deferred income that is recognized in the separate statement of profit or loss on a systematic basis over the useful life of the asset.

**3. Critical accounting judgements and key sources of estimation uncertainty**

In the application of the entity's accounting policies, which are described in note 2, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

**3.1 Critical judgements in applying accounting policies**

The following are the critical judgements, apart from those involving estimations (see note (2.3) below), that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the financial statements.

**3.1.1 Revenue recognition**

Management takes into account the detailed criteria for recognition of revenue from the sale of goods in accordance with Egyptian Accounting Standard No. (48) "Revenue from contracts with customers", and in particular, whether the Company has transferred to the buyer full control over the sold goods. The additional costs of obtaining a contract with a customer are recognized as an asset if the entity expects to recover those costs, and the costs of fulfilling a contract are recognized as an asset when specific conditions are met.

**3.1.2 Deferred income taxes**

The measurement of deferred income tax assets and liabilities is based on the judgment of management. Deferred income tax assets are only capitalized if it is probable that they can be used. Whether or not they can be used depends on whether the deductible tax temporary difference can be offset against future taxable gains.

In order to assess the probability of their future use, estimates must be made of various factors including future taxable profits. If the actual values differ from the estimates, this can lead to a change in the assessment of recoverability of the deferred tax assets and accounting for such a change, if any, is to be made on a prospective basis in the reporting periods affected by the change.

**3.2 Key sources of estimation uncertainty**

The following are the key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

**3.2.1 Useful lives of property, plant and equipment**

The carrying value of the entity's property, plant and equipment at the end of year ended December 31, 2022 amounted to EGP 1 809 821 676 (2021: EGP 1 994 319 312) (note 11). Management's assessment of the useful life of property, plant and equipment is based on the expected use of the assets, the expected physical wear and tear on the assets, technological developments as well as past experience with comparable assets. A change in the useful life of any asset may have an effect on the amount of depreciation that is to be recognized in the separate statement of profit or loss for future periods.

**3.2.2 Useful lives of intangible assets.**

The carrying value of the entity's intangible assets at the end of year ended December 31, 2022 amounted to EGP 191 268 364 (2021: EGP 219 424 613), (Note 13). Management's assessment of the useful life of intangible assets is based on the expected use of the assets, the expected physical wear and tear on the assets, technological developments as well as past experience with comparable assets. A change in the useful life of any asset may have an effect on the amount of depreciation that is to be recognized in the separate statement of profit or loss for future periods.

**3.2.3 Provisions**

The carrying amount of provisions at the end of period ended December 31, 2022 is EGP 60 492 574 (2021: EGP 24 437 823). This amount is based on estimates of future costs for legal cases and other claims in connection with the Company's operations (note 25). As the provisions cannot be determined exactly, the amount could change based on future developments. Changes in the amount of provisions due to change in management estimates are accounted for on a prospective basis and recognized in the period in which the change in estimates arises.

**4. Sales (net)**

An analysis of the Company's revenue for the year is as follows:

EGP	December 31, 2022	December 31, 2021
<b>Local</b>		
Sales	3 695 486 001	1 948 028 410
Transportation services	103 058 888	92 559 521
	<b>3 798 544 889</b>	<b>2 040 587 931</b>
<b>Export</b>		
Sales	667 514 155	237 809 726
Transportation services	82 884 935	64 142 523
	<b>750 399 090</b>	<b>301 952 249</b>
<b>Total</b>	<b>4 548 943 979</b>	<b>2 342 540 180</b>

**5. Cost of sales**

An analysis of the Company's cost of sales for the year is as follows:

EGP	December 31, 2022	December 31, 2021
Raw materials	3 097 447 351	1 666 110 047
Manufacturing depreciation	201 191 677	211 513 919
Amortization of Licenses - intangible assets	28 156 249	34 624 973
Amortization of right of use assets	5 487 561	4 935 960
Transportation costs	158 572 427	114 651 406
Overhead costs	153 238 586	118 530 330
<b>Total</b>	<b>3 644 093 851</b>	<b>2 150 366 635</b>

**6. General and administration expenses**

An analysis of the Company's general and administration expenses for the year is as follows:

EGP	December 31, 2022	December 31, 2021
Professional services	62 934 117	49 525 062
Salaries and wages	37 393 849	29 372 277
Security and cleaning services	1 410 636	1 415 022
Rentals	131 736	780 775
Transportation costs	3 503 839	1 768 887
Advertising	2 221 255	1 240 353
Administrative depreciation	2 093 327	2 041 249
Other expenses	44 115 779	27 499 405
<b>Total</b>	<b>153 804 538</b>	<b>113 643 030</b>

**Arabian Cement Company S.A.E.**

Notes to the Separate Financial Statements

For the year ended December 31, 2022

**7. Finance costs**

An analysis of the Company's finance costs for the year is as follows:

EGP	December 31, 2022	December 31, 2021
Loan interest expense	36 391 375	35 222 555
Electricity agreement interest expense	--	572 750
Finance lease	1 057 180	2 488 513
Finance cost of interest expense long term notes payable	588 878	205 127
Credit facilities interest expense	20 041 757	31 578 950
<b>Total</b>	<b>58 079 190</b>	<b>70 067 895</b>

**8. Compensation of key management personnel**

EGP	December 31, 2022	December 31, 2021
Board of Directors allowance	11 847 160	9 818 640
Board of Directors salaries	9 842 844	8 156 994
<b>Total</b>	<b>21 690 004</b>	<b>17 975 634</b>

\* Included in the Salaries and wages in the administrative expenses.

**9. Income taxes****9.1 Income tax recognised in the separate statement of profit or loss**

EGP	December 31, 2022	December 31, 2021
<b>Current income tax</b>		
Current income tax for the year	192 343 445	42 189 962
<b>Deferred tax</b>		
Deferred tax for the year	(35 236 262)	(22 400 084)
<b>Total income tax for the year</b>	<b>157 107 183</b>	<b>19 789 878</b>

The following table provides reconciliation between income tax expense recognized for the year and the tax calculated by applying the applicable tax rates on accounting profit:

EGP	December 31, 2022	December 31, 2021
Profit before tax	499 612 110	46 913 357
Tax using applicable tax rate 22.5%	112 412 725	10 555 505
<b>Add:</b>		
Effect of reversal of accounting depreciation and amortization	236 928 814	248 180 142
Effect of expenses that are not deductible in determining taxable profit	26 638 332	19 522 730
Effect of provisions formed that are not deductible in determining taxable profit	109 921 013	7 200 018
Effect of unrealized net foreign exchange losses that are not deductible in determining taxable profit	114 048 772	8 713 261
<b>Less:</b>		
Effect of tax depreciation and amortization that are deductible in determining taxable profit	(109 620 346)	(127 433 209)

Arabian Cement Company S.A.E.

**Arabian Cement Company S.A.E.**

Notes to the Separate Financial Statements

For the year ended December 31, 2022

**10. Earnings per share**

Basic earnings per share is calculated by dividing the earnings from continuing operations attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the year. For diluted earnings per share, the weighted average number of ordinary shares in issue is adjusted to assume conversion of all dilutive potential ordinary shares. As the company does not have any dilutive potential, the basic and diluted earnings per share are the same.

The earnings from continuing operations and weighted average number of ordinary shares used in the calculation of basic and diluted earnings per share are as follows:

EGP	December 31, 2022	December 31, 2021
<b>Earnings (for basic and diluted earnings per share)</b>		
Net profit for the year	342 504 927	27 123 479
Employees' share in the dividends (note 18)	(7 063 780)	(6 927 441)
<b>Distributable net profit for the year</b>	<b>335 441 147</b>	<b>20 196 038</b>
<b>Number of shares (for basic and diluted earnings per share)</b>		
Weighted average number of ordinary shares for the purposes of EPS	378 739 700	378 739 700
<b>Earnings per share from continuing operations</b>	<b>0.89</b>	<b>0.05</b>

## Arabian Cement Company S.A.E.

Notes to the Separate Financial Statements

For the year ended December 31, 2022

### Operating license

As per the country's policies to obtain a license for the cement factory, the General Industrial Development Association approved the issuing of a license to the company on May 21, 2008 in the amount to EGP 281.4 million for the 1st production line with related liability on the company to pay 15% as an advance payment and the residual amount will be paid over 5 equal annual instalments after 1 year from starting production with a maximum of 18 months according to interest rate determined by Central Bank of Egypt (CBE).

The above-mentioned value will be also applied for the second line and a 25% will be paid as an advance payment and residual amount will be settled over a period of 3 years according to the interest rate determined by Central Bank of Egypt (CBE).

### Electricity contract

Intangible assets represent the value of the contract concluded with the Ministry of Electricity on March 11, 2010, where the Ministry of Electricity identifies the needs of heavy industrial projects and arranges their needs, either through the establishment of new stations or already established ones. The cost of investments will be paid by the company according to what has been determined by the Ministry, which amounted to EGP 217.2 million, where payment has been agreed to be paid as follows:

- 15% advance payment equivalent to EGP 32.58 million.
- 120 monthly instalments due on the first of every month from April 2010 amounted by EGP 1.220 million per each instalment.
- 120 monthly instalments due on the first of every month from February 2011 amounted by EGP 1.342 million per each instalment.
- In addition to EGP 8 million for the allocation of two cells of the traditional type, to be paid in four quarterly instalments and the last instalment was due on February 1, 2011.

### **14. Investments in subsidiaries**

The Company has control over all the subsidiaries as listed below:

Company name	Domicile	Share/ Paid - in capital	December 31, 2022 EGP	December 31, 2021 EGP	Principal activities	Proportion of ownership interest and voting power held by the Company

On December 3, 2018 two borrowing contracts have been signed with Commercial International Bank "CIB" (Egypt) S.A.E a joint stock company as the "Lending Bank" and "Security agent", and European Bank for Reconstruction and Development "EBRD" and according to these contracts the lending banks have agreed to each enter into separate agreement with the company (borrower) to re-finance part of the borrower loans from NBE.

In light of the above, the lending banks agreed to the following:

**First: Commercial International Bank (CIB) - Security agent**

The bank has agreed to extend the borrower facility packages for EGP 705 million comprising two tranches as follows:

1. Tranche (A) facility not exceeding EGP 225 million with interest rate at CBE Overnight offer rate plus the margin of 2% .in the form of medium loan for the purpose of (1) re-financing EGP 230 million existing medium-term loan provided by NBE granted to the borrower to finance the investment cost related to the second coal mill, a bucket elevator for line 1 and the bypass dust dosing system; and (2) re-financing EGP 25 million of outstanding amounts owed to the NBE by the borrower under the Egyptian pollution abatement "EPAP".

## Arabian Cement Company S.A.E.

Notes to the Separate Financial Statements

For the year ended December 31, 2022

---

2. Tranche (B) facility not exceeding EGP 450 million with interest rate at CBE Overnight offer rate plus the margin of 0.6% in the form of multipurpose renewable facility available in local and foreign currencies for the purpose of financing the company's working investments needs and refinancing the company outstanding working capital facility at NBE.

Thus the company shall repay the Tranche (A) loan to the lender in (23) quarterly unequal instalments starts from December 31, 2019 and ends on June 30, 2025, and the Borrowing contract obligates the company with the following securities:

- Conclude first-degree pledge on each of the facility accounts in favour of the lender for itself and the lending banks thereon by no later than five days from the contract date.
- Conclude in favour of the lender, for itself and on behalf of the lending banks a first degree real-estate mortgage on the land and the buildings and other real property of the borrower that are built thereon by no later than six months from the date of the issuance of the relevant power of attorney in favour of the lender and by no later than September 30, 2019. The borrower shall add any buildings to be added to the aforementioned mortgage.
- Conclude in favour of the lender, for itself and on behalf of the lending banks a first degree mortgage over the tangible and intangible assets of the borrower including machinery and equipment, goodwill and industrial property rights related to the borrower's assets, no later than the date falling (1) month from the date of the insurance of the relevant power of attorney in favour of the lender and by no later than April 30, 2019. The management has completed the procedures for change the mortgage into the favour of the bank.
- Issue irrevocable powers of attorney authorizing the Lender, for itself and on behalf of the lending banks, to conclude and register each of the Mortgages.
- Endorsement of the Borrower's all-risk insurance policy/policies in favour of the lender for itself and on behalf of the lenders in all assets in no more than (2) weeks from the date of this agreement, covering not less than 110% of the loans extended to the borrower by the lending banks.
- Not to distribute dividends unless the Borrower is in compliance with all financial covenants pre and post distribution and no occurrence of the event of default would be caused as a result of said distribution.
- The borrower undertakes that the financial leverage ratio shall not to exceed (2) in the financial year of 2019 and (1.5) thereafter throughout the remaining tenor of the facility.
- The Borrower undertakes that the debt service ratio "DSR" shall not to fall below (1.3) throughout the tenor of the facility.
- The Borrower undertakes that the capital expenditures in excess of EGP 100 million annually to be financed through equity injections and/or subordinated shareholders subject to the Lender's notification and presenting a revised business plan. the aforementioned is subject to the Borrower's compliance with all financial covenant for the fiscal year and will not be breach of any financial covenants as a result of such capital expenditures.
- The Borrower undertakes that the net financial Debt to EBITDA shall not exceed 2.5 times.
- The main shareholder undertakes an irrevocable and unconditional undertaking not to waive any portion of the controlling interest that is less than 50% plus (1) share without obtaining the bank's prior written consent.

### **Second: European Bank for Reconstruction and Development "EBRD"**

As mentioned above, a financing contract was signed with the European Bank on December 3, 2018. Under this contract, the Bank agreed to lend the company a sum of not more than USD 25 million with interest calculated at the Six-month Libor plus a Margin 4.35% for the purpose of refinancing the current debtor's debt in US dollars, which was partially used for the following purposes:

- A- As a facilitation of funding for Lack of investments related to energy efficiency.

## Arabian Cement Company S.A.E.

Notes to the Separate Financial Statements

For the year ended December 31, 2022

---

B- Financing and renewing the current cement production plan.

Commitments to the Loan Contract other than the guarantees and undertakings referred to above include:

- The Borrower undertakes that the debt service ratio "DSR" shall not fall below 1.3.
- The Borrower undertakes that net bank debt shall not exceed 2.5 times the net profit before revenue, taxes, depreciation and depreciation.
- The Borrower undertakes that the net bank debt not to exceed the (1.3) times the equity.

According to the loan agreement with the European Bank, the Borrower has agreed to provide an additional grant of no more than 17% of the costs associated with the design, supply, installation and operation of the items to be financed and provided for in the contract or EUR 170,000, which is lower. During the month of January 2020, the company obtained a grant of EUR 170,000 in accordance with the loan contract, equivalent to an amount of EGP 3 074 212. The grant has been treated according to the Egyptian accounting standard number (12) by using revenue accounting for the grant as it recorded as deferred revenues on the other credit balances and to be recorded on the separate statement of profit or loss for the remaining useful life of the related asset. (Note 28).

In accordance with the previous contract with the National Bank of Egypt (NBE) dated June 30, 2013, this contract included the fact that the Borrower has 20% of the amount of financing granted by the Bank after full filament of several conditions which were fully met during 2018. Thus the grant which is with total amount of EGP 13.6 million has been treated according to the Egyptian accounting standard number (12) by using revenue accounting for the grant as it recorded as deferred revenues on the other credit balances and to be recorded on the separate statement of profit or loss for the remaining useful life of the related asset (Alternative fuel line). (Note 28)

The previous mortgage in favour of the National Bank of Egypt (NBE) has been cancelled on company commercial register on February 24, 2019.

### **Third: - National Bank of Egypt - NBE**

On September 7, 2022, a credit facility contract was signed between the National Bank of Egypt and the Arab Cement Company. Under this agreement, the company was granted credit facilities amounted to EGP 200 million for withdrawal in a debit current account and to open letter of credits for the purpose of financing the working investment, provided that it is used to pay the dues of suppliers of raw materials and production requirements, pay energy expenses and pay wages and salaries expenses with a maximum of 20 million pounds.

The interests and commissions are calculated on interest rate of 1% above the corridor lending rate.

The commitments in the credit facilities agreement included the following:

- Insurance in favour of the bank against the risk of fire and burglary on the stock of raw materials and spare parts within the limits of 110% of the value of the facilities.
- The financial leverage shall not exceed 2 times during the fiscal year December 31, 2022.
- Not to distribute any dividends in any year before paying all the obligations arising from the financing.
- perform commercial mortgage of the second degree on all the material and intangible components of the factory and the head office in favour of the bank within 3 months from the date of signing the contracts.

<b>Total</b>	<b>288 398 900</b>	<b>173 209 979</b>

**28. Financial instruments****28.1 Capital risk management**

The Company manages its capital to ensure that will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance.

The capital structure of the entity consists of net debt (borrowings and other liabilities, offset by cash and bank balances (Note 19) and equity of the Company (comprising issued capital, legal reserve and retained).

The Company is not subject to any externally imposed capital requirements.

The gearing ratio Nil on December 31, 2022 (2021: 49%) as presented in the below schedule. The decrease mainly due to the repayments for the borrowings during the year along with the increase in equity due to profit for the year and the increase in cash and bank balances.

The gearing ratio at the end of the reporting year was as follows:

EGP	December 31, 2022	December 31, 2021
Debt (i)	714 790 709	644 028 769
Cash and bank balances	(797 971 564)	(117 292 968)
<b>Net debt</b>	<b>--</b>	<b>526 735 801</b>
<b>Equity</b>	<b>1 158 578 742</b>	<b>1 072 969 457</b>
<b>Net debt to equity ratio</b>	<b>0%</b>	<b>49%</b>

(i) Debt is defined as borrowings, credit facilities and lease liabilities, as detailed in (note 23 and 31).

**28.2 Significant accounting policies**

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note 2.14 Financial instruments.

## Arabian Cement Company S.A.E.

Notes to the Separate Financial Statements

For the year ended December 31, 2022

### 28.3 Categories of financial instruments

EGP	December 31, 2022	31 December 2021
<b>Financial assets (i)</b>		
Cash and bank balances (Note 19)	797 971 564	117 292 968
Trade receivables (Note 17)	49 371 741	12 292 593
Due from related parties (Note 29)	12 276 959	17 668 523
<b>Financial liabilities (ii)</b>		
Borrowings (Note 23)	341 010 870	387 095 688
Credit facilities (Note 23)	360 644 205	240 386 963
Lease liabilities (Note 31)	13 135 634	16 546 118
Due to related parties (Note 29)	2 090 485	10 450 379
Trade and notes payable (Note 24)	827 417 476	664 450 060
Creditors and other credit balances (Note 27)	288 398 900	173 209 979

- (i) A total of EGP 833 million (2021: EGP 501.8 million) of other current assets does not meet the definition of a financial asset.
- (ii) A total of EGP 767 million (2021: EGP 366 million) of other current and non-current liabilities does not meet the definition of a financial liability.

### 28.4 Financial risk management objectives

In the course of its business, the Company is exposed to a number of financial risks. This note presents the Company objectives, policies and processes for managing its financial risks and capital. These risks include market risk (including currency risk, and interest rate risk), credit risk and liquidity risk. The Company seeks to minimise the effects of these risks mainly through operational and finance activities.

### 28.5 Market risk

The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates (see note 28.6 below) and interest rates (see Note 28.7 below).

### 28.6 Foreign currency risk management

The Company undertakes certain transactions denominated in foreign currencies. Hence, exposures to exchange rate fluctuations arise. The currencies, in which these transactions primarily are denominated, are U.S. Dollar (USD), and Euro (EUR).

The Company's main foreign exchange risk arises from purchases of raw materials in foreign currency and the USD loans used to finance the construction of the production facility (the Cement Plant) of the Company.

The following table shows the carrying amounts of borrowings (EBRD loan), at the end of the reporting year, in the major currencies in which they are issued.

#### **Borrowings**

EGP	December 31, 2022	December 31, 2021
USD	188 010 870	188 195 688
<b>Total</b>	<b>188 010 870</b>	<b>188 195 688</b>

At the end of the reporting year, the carrying amounts of the Company's major foreign currency denominated monetary assets (mainly receivables and cash at banks) and monetary liabilities (mainly foreign suppliers and due to related parties), at which the entity is exposed to currency rate risk, are as follows:

## Arabian Cement Company S.A.E.

Notes to the Separate Financial Statements

For the year ended December 31, 2022

EGP	Liabilities		Assets	
	December 31, 2022	December 31, 2022	December 31, 2022	December 31, 2022
Currency-USD	772 208 456	459 511 654	228 318 650	88 021 881
Currency-EUR	6 570 646	--	3 529 326	3 493

### 28.6.1 Foreign currency sensitivity analysis

As discussed above, the Company is mainly exposed to the U.S. Dollar (USD), and Euro (EUR) arising from purchases of raw materials in foreign currency and the USD loans used to finance the construction of the production facility (the Cement Plant) of the Company.

The following table details the entity's sensitivity to a 10% increase and decrease in EGP against the relevant foreign currencies. The (10%) is the sensitivity rate used when reporting foreign currency risk internally to key management and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates.

The sensitivity analysis includes outstanding borrowings, cash at bank, trade receivables, other debit balances, due to related parties and foreign suppliers within the entity.

A positive number below indicates an increase in profit or equity where the EGP strengthens 10% against the relevant currency. For a 10% weakening of the EGP against the relevant currency, there would be a comparable impact on the profit or equity, and the balances below would be negative.

EGP	Currency USD Impact		Currency EUR Impact	
	December 31, 2022	December 31, 2021	December 31, 2022	December 31, 2021
Profit or loss	54 388 981	37 148 977	304 132	349

### 28.7 Interest rate risk management

The Company is exposed to interest rate risk because entities in the entity borrow funds at floating interest rates.

#### 28.7.1 Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of liability outstanding at the end of reporting period was outstanding for the whole year. A '100 basis point' (1%) increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 100 basis points higher / lower and all other variables were held constant, the entity's profit for the year ended December 31, 2022 would decrease / increase by EGP 7 016 551 (2021: decrease / increase by EGP 6 274 827). This is mainly attributable to the entity's exposure to interest rates on its variable rate borrowings.

### 28.8 Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company credit risk arises from transactions with counterparties, mainly individual customers and corporations. The Company is dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The Company's exposure to credit risk is, to a great extent, influenced by the individual characteristics of each customer. Risk control assesses the credit quality of the customer, taking into account its financial position, past experience, other publicly available financial information, its own trading records and other factors, where appropriate, as a means of mitigating the risk of financial loss from defaults. The entity's exposure is continuously monitored, and the aggregate value of transactions concluded is spread amongst approved counterparties.

## Arabian Cement Company S.A.E.

### Notes to the Separate Financial Statements

For the year ended December 31, 2022

Trade receivables do not consist of a large number of customers. The Company does not have any significant credit risk exposure to any single counterparty or any Company of counterparties having similar characteristics. The Company defines counterparties as having similar characteristics if they are related entities.

The carrying amount of financial assets recorded in the financial statements, which is net of impairment losses, represents the Company's maximum exposure to credit risk without taking account of the value of any collateral, if any.

#### 28.9 Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has established an appropriate liquidity risk management framework for the management of the entity's short, medium and long-term funding and liquidity management requirements. The entity manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

EGP	Due in 1 year		Due more than year and less the 3 years		Due more than 3 years	
	December 31,	December	December 31,	December	December 31,	December 31,
	2022	31, 2021	2022	31, 2021	2022	2021

Due to related parties	2 090 485	--	--	--	--	--
Dividends payable	249 968 203	--	--	--	--	--
Creditors and other credit balances	288 398 900	173 209 979	--	--	--	--

#### 28.10 Fair value measurement

Fair value is the price that would be received from any sale of any asset or any payment against any liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the assumption that the transaction to sell the asset or pay the liability takes place either:

- In the asset's or liability's primary market; or
- In the absence of a primary market, in the most beneficial market for the asset or liability.

The Company should be able to have access to the principal market or the most advantageous market. In the absence of principal market, the Company does not need to conduct a thorough search of all possible markets to determine the principal or the most advantageous market. However, the Group takes into consideration all information reasonably available.

The Company has no financial assets or liabilities at fair value in the separate financial statements as at December 31, 2022.

#### 29. Related party transactions

A party (a company or individual) is related to an entity if:

- a) Directly, or indirectly through one or more intermediaries, the party:
  - i. Controls, is controlled by, or is under common control with, the entity (this includes parents, subsidiaries and fellow subsidiaries);

## Arabian Cement Company S.A.E.

### Notes to the Separate Financial Statements

For the year ended December 31, 2022

- ii. Has an interest in the entity that gives it significant influence over the entity; or
- iii. Has joint control over the entity;
- b) The party is an associate of the entity or a joint venture in which the entity is a venture (both defined in EAS 43 Investments in Associates and Joint Ventures);
- c) The party is a member of the key management personnel of the entity or its parent;
- d) The party is a close member family of any individual referred to in (a) or (b);
- e) The party is an entity that is controlled, jointly controlled or significantly influenced by, or which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (a) or (b); or
- f) The party is a post-employment benefit plan for the benefit of employees of the entity, or of any entity that is related party of the entity.

During the period, entity entities entered into the following transactions with related parties:

EGP	Relation type	Transaction nature	Volume of the transactions	
			December 31, 2022	December 31, 2021
Andalus Concrete Company	Subsidiary	Sales	25 413 031	4 940 597
ACC for Management and Trading Company	Subsidiary	Services	74 368 763	57 903 300

### Development fee

The Company pays the due development fee for the cement produced from local clinker only. The Company has received claims for the payment of development fee differences, represented as follows:

The development fee due and the delay penalties have been paid until 2016.

The company was claimed for the development fee difference for the year 2017 and 2018 in the amount of EGP 3 783 062 and the file was referred to the Appeal Committee. The decision of the Appeal Committee was issued for the year 2018, whereby the company is owed a tax of EGP 94 860, and there is still a dispute over the development fee due for the year 2017, amounting to EGP 1 196 265.

The Company paid all development fees on cement produced from local clinker until December 2022.

### Withholding Tax

- The company was inspected for the years from 2013 till 2016 and the due taxes have been paid.

- The company pay the withholding tax amounts on a regular basis every 3 months.

### **35. Significant Events during the current period**

- During the recent period, despite of the signs of the global economy recovering from the turmoil resulting from the Corona virus, global inflationary pressures raised again due to the developments in the Russian -Ukrainian conflict, as the risks of the global economy increased because of this conflict. At the top of these pressures, the noticeable rise in the global prices of basic commodities, the disturbance of supply chains and the high shipping costs, in addition to the fluctuations of financial markets in emerging countries. This led to local and international inflationary pressures.
- The Monetary Policy Committee of the Central Bank of Egypt decided at its extraordinary meeting on Monday, March 21, 2022, to increase the overnight deposit and lending rates and the central bank's main operation rate by 100 basis points to reach 9.25%, 10.25% and 9.75%, respectively. The discount rate was also increased by 100 basis points to 9.75%.
- On April 27, 2022, the Prime Minister issued the Ministerial decree No. (1568) for the year 2022 to amend some provisions of the Egyptian Accounting Standards by adding Annex (B) to the Egyptian Accounting Standard No. (13) "The Effects of Changes in Foreign Exchange Rates". This annex aims to setting a special and optional accounting treatment for the implications resulted from the Exceptional Economic Decision pertaining to the movement of the foreign currencies exchange rates that has occurred on March 22, 2022 on through setting a temporary additional option to paragraph (28) of the Egyptian Accounting Standard No (13) – "The Effects of Changes in Foreign Exchange Rates" which requires the recognition of the foreign exchange difference in the statement of profit or loss for the period in which they incur. Alternatively, an entity that has outstanding liabilities in foreign currency on the date of the movement of the exchange rates (March 22, 2022) related to property plant and equipment, investment property, intangible assets (other than goodwill) or mining assets that were acquired during the from the beginning of January 2020 until the date of the movement of the exchange rate (March 22, 2022) to translate and recognize the foreign exchange differences resulted from the translation of related liabilities at the date of movement of the exchange rates (March 22, 2022) as a part of the acquisition costs. Also, this treatment permits an entity to recognize foreign exchange gains or losses resulting from the translation of the monetary balances in foreign currencies that are outstanding on the movement date of the exchange rates (March 22, 2022) to be recognized in the statement of other comprehensive income in accordance with paragraph (9) of the annex and the Company's management has decided not to apply any of the treatments mentioned above during the year ended December 31, 2022.
- On December 29, 2022, the Prime Minister issued the Ministerial decree No. (4706) for the year 2022 to amend some provisions of the Egyptian Accounting Standards by adding Appendix (C) to the Egyptian Accounting Standard No. (13) "The Effects of Changes in Foreign Exchange Rates". This annex aims to setting a special and optional accounting treatment for the implications resulted from the Exceptional Economic Decision pertaining to the movement of the foreign currencies exchange rates that has occurred on October 27, 2022 through setting a temporary additional option to paragraph (28) of the Egyptian Accounting Standard No (13) – "The Effects of Changes in Foreign Exchange Rates" which requires the recognition of the foreign exchange
